KeyaTM

Discover A New Revolution In Softness

KAMP USA

Confident. Relaxed. Strong. Comfortable. Versatile. Affordable.

Keya makes it easy to make your mark on the world of printable apparel. Keya feels different than anything else in the printable apparel industry. Softer, more comfortable, stronger, with remarkable printability – all at highly competitive prices.

Shoulder-to-shoulder taping – provides additional comfort.

Double-needle cover-seamed neck
– keeps the collar from waving.

Tear-away label – add your
brand by replacing our label
with yours or heat-sealing
your logo inside the shirt.

Preshrunk jersey knit and double-needle
sleeve and bottom hem – helps the shirt
hold its shape longer.

High-stitch density fabric – produces
a better printing surface.

Ring-spun fabric – softer and more durable for better washing and wearing.

Our ring-spinning process makes our fabric softer to the touch, more comfortable to wear, and stronger to enjoy longer.

A tighter knit face gives our shirts a smoother surface for superior screen printing.

Choose from 7 styles in 27 striking colors designed to appeal to everything from basic school and team uniforms to fashion-driven retail and private label programs. Offering this select

range of styles also enables us to maintain the deep inventory necessary to satisfy your immediate product demands.

What else would you expect from one of the world's leading producers of knit apparel? The Keya name may be new to you but Keya's not new to the apparel industry. Our shirts have been sold and worn as various brand names for more than 20 years. And now they are available to you – with no minimum order requirements, same-day shipping and all major credit cards accepted.
